Mr. Editor:—I see by the papers that you will allow no knocking on Clovertown. Now what is a natural born knocker going to do about it any way? We took a bit at the old town regardless of your warning.

We are authorized to announce the Hon. Joe Mullen, of Cloverport, as a candidate for President, subject to the action of the Democratic party at Baltimore. Says he cares nothing about the office, just wants the honor of defeating the Hon. Bob Mattingly.

Our friend, Mr. Tate, of lower Cloverport, informs us that his almanac predicts a large flow of ice in July. Now those who don't believe in the ground hog please sit up and take notice.

What has become of our wait a-minute man, Sam Keith? Is he locked up in that dam that they are building at Cloverport? We enjoy Ed. Gregory's river news. If it keeps on raining with this snow Ed. will soon be near his subject, the river.—Joe Mulhatton.

W. G. Lawson Writes From New Home In The West

Dear Mr. Babbage:—I wish to tell our many friends through your paper how we found my wife when we reached here on Feb. 17th. At the breaking up of a big snow some time before we came, she took lagrippe which has been very hard on her. She is better now. Up to the time she took lagrippe she had been slowly improving every since she reached the state. She came here last September. The children and I left Kentucky, Feb. 14, 1912. The nice weather that greeted us on our arrival was of a very short duration. We have been having snow to a finish. Yesterday was the worst day I ever saw, it was a clear day, but the wind blew so hard from the south that the air was filled with drifting snow. There were five trains tied up in the drifted snow a little west of here yesterday, two through freights west bound and three passenger trains. It has been a very common thing to see a snow plow (as it is commonly called) passing with two or three engines pushing it to clear the tracks. If this does not break up soon lots of stock will die. Feed is so scarce and the farmers have not made much for the past two years, consequently, many are unable to buy necessary feed to keep their stock. Much stock has perished already that had to depend on the prairie grass for food which was covered with snow.

Perhaps I had better ring off before some one thinks I am home sick, but I want to say that I am not expecting to farm. I have bought a lot of broom material and expect to be putting out a nice lot of brooms from the "Seibert Broom Works" in a short time. Hoping

Her Own Statement.**

Covington, Mo.—"Your medicine has done me more good than all the doctor's medicines. At every monthly period I had to stay in bed four days because of hemorrhages, and my back was so weak I could hardly walk. I have been taking Lydia E. Pinkham's Vegetable Compound and now I can stay up and do my work. I think it is the best medicine on earth for women."

—Mrs. JENNIE GREEN, Covington, Mo.

**How Mrs. Cline Avoided
Operation.**

Brownsville, Ind.—"I can say that Lydia E. Pinkham's Vegetable Compound has done me more good than anything else. One doctor said I must be operated upon for a serious female trouble and that nothing could help me but an operation. "I had hemorrhages and at times could not get any medicine to stop them. I got in such a weak condition that I would have died if I had not got relief soon. "Several women who had taken your Compound, told me to try it and I did and found it to be the right medicine to build up the system and overcome female troubles. "I am now in great deal better health than I ever expected to be, so I think I ought to thank you for it."—Mrs. O. M. CLINE, S. Main St., Brownsville, Ind.

You judge a man not by what he promises to do, but by what he has done. That is the only true test. Chamberlain's Cough Remedy judged by this standard has no superior. People everywhere speak of it in the highest terms of praise. For sale by all dealers.

The Small-pox Scare.

County Health Officer, Dr. John Kincheloe, and the local physicians, report several cases of small-pox. The Mayor issued an order that all public assemblies be closed and every caution is being taken to prevent the disease from spreading. Three or four flags of warning are out and those who have been exposed are taking care of themselves. Hawesville has got it too, and the traveling men say it is all over the country in a mild form.

Dr. E. C. McDonald has been appointed by the County Board of Health to take care of the patients here.

Itching, bleeding, protruding or blind piles yield to Doan's Ointment. Chronic cases soon relieved, finally cured. Druggists sell it.

The Ten Demandments.

In a salmon cannery in Western Canada is this bulletin:
For worldly wisdom it would be difficult to surpass the "Ten Demandments" hanging in one of the many salmon canneries at Steveston, Western Canada.

1. Don't lie. It wastes my time and yours. I am sure to catch you in the end, and that is the wrong end.
2. Watch your work and not the clock. A long day's work makes a long day short; and a short day's work makes my face long.
3. Give me more than I expect, and I will give you more than you expect. I can afford to increase your pay if you increase my profits.

4. You owe so much to yourself that you cannot afford to owe anybody else. Keep out of debt, or keep out of my shops.

5. Dishonesty is never an accident. Good men, like good women, never see temptation when they meet it.

6. Mind your own business, and in time you'll have a business of your own to mind.

7. Don't do anything here which hurts your self-respect. An employee who is willing to steal for me, is willing to steal from me.

8. It is none of my business what you do at night, but if dissipation effects what you do the next day, and you do

Women as Well as Men are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers who found Swamp-Root to be just the remedy needed. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

half as much as I demand, you'll last half as long as you hoped.
9. Don't tell me what I'd like to hear, but what I ought to hear. I don't want a valet to my vanity, but for my dollars.
10. Don't kick if I kick. If you're worth while correcting you're worth while keeping. I don't waste time cutting specks out of rotten apples.

Still Kiss Good Night.

Still kissing good night! Ah, do not let it go. That loving custom that the loved hearts know. When little children in dear homes of love. Clasp the dear throats that lean to them above. And kiss good night to mother through the years—

Still kiss good night, in laughter or in tears! I sometimes think that when child-hearts begin To feel, mid throbbing of the toil, and din, They've grown too old to kiss good night, 'twill be Sad for the world, the old simplicity Of sweet, clean living, and bring in their place The roar and rumble of a weaker race!

Still kiss good night! And kissing feel how deep. The quiet heart may sink in nightly sleep, How clean the soul grows for the coming day. With all mean hatreds, envy, cast away.

And that high love that families know, which binds From infant years their souls, their hearts, their minds! —Baltimore Sun.

Visiting at The Burg.

Miss Lula Vessells, of Owensboro, the only daughter of "Bunk" Vessells, went to Hardinsburg last Saturday to visit her aunt, Mrs. McGary. Miss Vessells lived in Cloverport when a young girl and was a pupil of Miss Bennie Harrison, who taught a private Catholic and music school here. She says she still hears from "Miss Bennie". Miss Vessells is a bright, attractive young lady and has a good position with McAfee & Lyddan at Owensboro.

PREPARATION OF A SEED BED

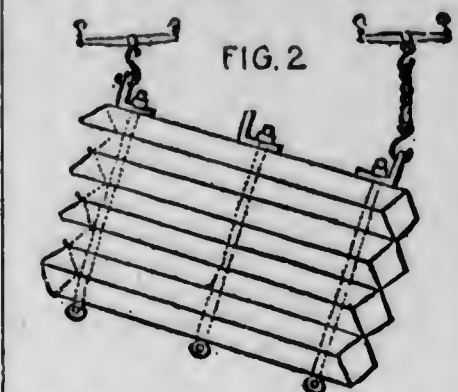

Illustration Shows Implement for Mellowing Surface and Also for Smoothing Roads.

An implement which may be used to mellow the surface is made by taking four pieces of seasoned hard wood, each six by six inches, and eight feet long; bolt together so that the corners, or edges, will rest on the ground, with three eye-bolts of three-quarter-inch round iron, about 32 inches long, one through the middle of the drag, the others each six inches from either end of the timbers. Use

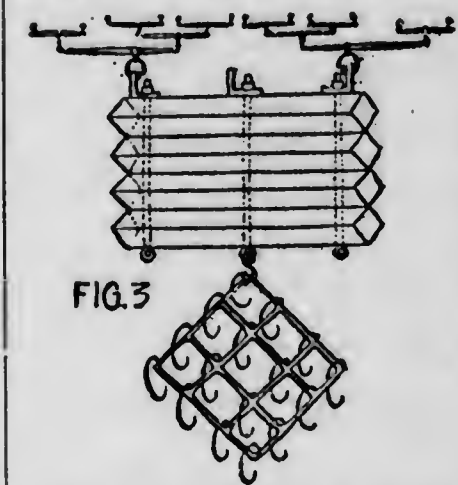

angle washers with holes for open rings of hooks, clip on half-inch edge of the tow inside pieces back of end bolt, for chain hook in transportation from place to place, as shown in Fig. 1.

For use as road smoother, drop back right-hand end of drag with

about 2 1/2 feet of wagon stay-chain, as in Fig. 2.

After plowing in the earlier portion of the day, transfer the teams to the

combination drag-harrow, guiding the six abreast with ordinary checks as shown in Fig. 3.

Caution on Pasturing Alfalfa. Alfalfa should be pastured with very great caution. In fact, the farmer who holds this matchless crop in proper regard will pasture something else and just use the alfalfa for hay. But if the alfalfa is to be pastured about half enough stock should be kept on it to keep the growth down. By this method two or three cuttings of hay will be obtained in addition to the pasturage.

Another caution to throw out is that it should be allowed to make a good start in the spring before the stock are turned on, and should be allowed to go in the winter with a good cover. Under no conditions should it be pastured in cold weather.

Buying Supplementary Feeds. The farmer who has an abundance of corn and no other grain will find it greatly to his profit if he will sell a part of his corn and buy other feeds to furnish a variety of rations for the animals, as their systems thus would be supplied with all the essentials necessary to proper growth and development, and yet not require so much feed.

Good Roads & Farm Notes

A liberal use of paint means a great deal to the farmer. Sharpen and repair the garden tools for next season's use.

The successful garden is started in the fall, although not a seed may be planted.

Keep all the tools that are used around the barn in convenient and safe places.

A little paint goes a long way toward making a home out of a group of buildings.

How much does it cost to have that machinery standing out in the weather? Shedding is cheap!

While planting your garden give due attention to the color of the flowers so that they may harmonize.

Many a new and valuable implement is left out all winter more through carelessness than anything else.

Tobacco dust worked into the surface of the soil just before setting the lettuce will help to keep the aphids away.

These days can be put to good use in getting the grindstone into service and sharpening up things generally.

Ashes are best applied in the spring, separately or in connection with phosphate fertilizers as a top dressing.

Cabbage is one of the easiest vegetables to start from seed and to transplant, and to be made to grow in the garden or field.

"A DARE NECESSITY"

Many widows and orphan children have suffered poverty because their husband and father was careless in providing them with a Life Insurance Policy. And many men have to toil and work in old age for bread, because they did not, in early life, provide for old age with an Income Policy. The time to take a Life Insurance Policy is when you are in good health, but don't take a policy until you have thoroughly investigated the Mutual Benefit Life Insurance Co's. contract, because it is "DIFFERENT". It contains special privileges not given by other companies.

The Farmer's Check Book

It has been said that the Farmer's check book saves him more than all of the labor-saving machines that have been invented for his use. It is certainly true that the convenience of drawing checks instead of having to handle money is a great saving of time, both in the matter of money-handling and in the keeping of accounts. The check stubs are such a dependable record of expenditures and the cancelled checks themselves an excellent receipt. In paying of labor this is very important.

When you are in town we would be glad to discuss the matter with you.

T. R.'s. Coon Hunt.

Teddy, once a-hunting went,
His old coon dog soon struck a scent;
He let out a yelp and Teddy a roar,
And into the jungle the old hound bore.

The trail soon stopped, and the hound
barked treed,
Then Teddy started to him at his ut
most speed;

He shined his light amid all that fuss,
Holy gee, says Teddy, it's a hippo-
potamus.

Teddie raised his blunderbuss,
To bring down the onery cuss,
When a voice sang out, "In God we
trust."

But be danged careful how you point
that blunderbuss.

Bill says to Teddy, "I'll come down,
If you'll only hold that loud-mouthed
hound;"

Bill rolled out, and began to cuss,
Because T. R. took him for a hippo-
potamus.

Now just listen to the last refrain,
It's going to cause a mighty pain;
For there stood Bill Taft and Caleb
Powers,

Good God, said the wood cock, wouldn't
it give you the scowls?

Send a Committee Down.

The Legislature should send a com-
mittee down in this neck o' the woods
to investigate the roads. The mail
carrier from Balltown came walking
into town the other day with mud in
his whiskers, and reported that his
horse had been swallowed up by a
mud-hole just out of town. He usually
brings feed with him, and he says that
he threw the corn in where his horse
went down, and when it dries up suf-
ficiently he will dig him out. He is
still feeding the hole in the hopes of
keeping the poor horse alive. The
Legislature should appropriate enough
money to buy each farmer an airship.
Like "Cooking Stove" Dan's bill, it
would be appreciated.

Common Error Of Pruning.

The most common error in the prac-
tice of pruning is in cutting a branch
several inches out from the main stem
upon which it grew. Frequently this
pruning is done with an ax, leaving
stubs three or four inches long. This
is a ruinous practice, for the long stub
cannot be covered over with new heal-
ing tissue, and in a few years decay
will be started in this spur and soon
travel down into the main branch or
trunk of the tree; finally resulting in a
rotten hearted or hollow tree, a deligh-
tful place while it lasts for the wood-
peckers to nest, but soon destined to be
broken down in a gale of wind or a
sleet storm. Thousands of apple and
other trees in Kentucky have been
brought to an untimely end through
such careless methods of pruning, as
witnessed in orchards all over the
State.

The orchard is no place for an axman.
Let him stay in the wood lot.

EGG LAYING CONTEST

Begins April 1--Which American
Hen Is The Greatest Egg
Producer Will Be Determined
In Six Months.

The aristocracy of American "chick-
endom" is about to be established
through the Evening Post's great egg-
laying contest. At the end of a com-
petition which shall cover a period of
six months, it will be possible to deter-
mine which breed of American hen is
the greatest egg producer. Then, for
the time in "hendon," the fowl which
has contributed so largely and faith-
fully to the tables of the nations will
be entitled to the specific rank of
"queen among hens."

The scene of this unique competition
will be "Belair," the beautiful stock
farm of Senator Thomas H. Paynter,
near Frankfort, Ky. Senator Paynter's
son, T. P. Paynter, has consented to
act in the capacity of general manager
of the contest, and will be assisted
by an executive board of prominent
stock and poultry raisers. "Belair" is
one of the most famous stock farms of
Kentucky, and in extending the advan-
tages of this famous place to the pro-
moters of the egg-laying contest, Sen-
ator Paynter has done a great service
for the egg industry throughout the
United States. "Belair" is also the

For Women Who Care

Of course you use an antiseptic in your
family and in the care of your own per-
son, and you want the best.

Instead of what you have been using
such as liquid or tablet antiseptics or
peroxide, won't you please try Paxtine,
a concentrated antiseptic powder to be
dissolved in water as needed.

Paxtine is more economical, more
cleansing, more germicidal and more
healing than anything you ever used.

Paxtine
ANTISEPTIC

In the toilet—to cleanse and whiten
the teeth, remove tartar and prevent
decay. To disinfect the mouth, destroy
disease germs, and purify the breath.
To keep artificial teeth and bridgework
clean and odorless. To remove nicotine
from the teeth and purify the breath
after smoking. To eradicate perspiration
odors by sponge bathing.

As a medicinal agent for local
treatment of feminine ills where pelvic
catarrh, inflammation and ulceration
exist, nothing equals hot douches of
Paxtine. For ten years the Lydia E.
Pinkham Med. Co. has been regularly
advising their patients to use it because
of its extraordinary cleansing, healing
and germicidal power. For this pur-
pose alone Paxtine is worth its weight
in gold. Also for nasal catarrh, sore
throat, inflamed eyes, cuts and wounds.
All druggists, 25 and 50 cents a box.
Trial box and testimony of 31
women free on request.

THE NATIONAL RESERVE ASSOCIATION.

While in Louisville the other day we called at the office of the Kentucky Branch of the National Citizens' League in the Equitable building from which our old newspaper friend, W. P. Walton, is secretary, conducting a campaign of education for Monetary and Banking Reform. We rather hoped that our friend had found an easier way to acquire the filthy lucre, but learned that the object of the League is to advocate a National Reserve Association, which will minimize, if not entirely eliminate the dangers of recurring panics which have played such havoc with business and caused much suffering and distress among those who earn their living by the sweat of their brows.

With the Reserve Association, co-operation, not centralization, is proposed, and by it the banks will be enabled to make their reserves more liquid and in times of stress be able to rediscount their good commercial paper. Besides the National Reserve Association with headquarters at Washington, there are to be fifteen branch associations located over the country, four of which are to be in the South. Both National and State banks can join the association on equal terms.

The bill is very comprehensive, and with many people it will be regarded with suspicion because Senator Aldrich was chairman of the Commission, believing that after his life of activity against the cause of the great common people no good thing can come out of him. However, that should not prevent a careful consideration of the bill. The Commission was made up of Democrats and Republicans, who after a study of four years of the systems of foreign countries, and finding the needs of this, made their report unanimous.

Write your Congressman for a copy of the bill. It is worth studying.

We take the privilege and pleasure of publishing a letter from W. J. Owen & Sons, of the Valley Stock Farm, making an earnest appeal for a movement to organize a boys' corn club for Breckenridge county. We are glad our editorial last week attracted his interest. We hope that the corn growers of the county will write us further their desires and ideas for such an organization. We need more corn, and we need men who will convert others to see how much more valuable corn growing is than tobacco raising.

The concrete walks at McQuindy are a thing of joy for that town and all visitors. One mile of sidewalks were put down last fall, covering the churches, school-house and stores. This was all done by the citizens and good women of the churches who contributed money and men their work. Father Kanue was the head of the movement. It is certainly a great improvement to that town on the branch.

Every farmer in Breckenridge county is warned in advance to test his seed corn, ear by ear, so that corn that will germinate may be secured for the planting season. It is not sufficient to accept somebody's statement that the corn has been tested, as there are many ways of testing corn. Each farmer should select the ears to be tested and test each separately.

Work will begin on the Henderson dam about April 1. Three hundred men will report for work at that time, and all will be under the supervision of Capt. John Jennings Kingman, U. S. army engineer. Mr. Kingman is now in Louisville looking over the work to be done on other dams. Work on the dam at Addison will follow soon.

The station at Old Mystic has been closed and trains stop only at New Mystic, which has been made a telegraph station. L. Connor is the agent. Mr. Cox, former agent at Old Mystic, has been transferred to Lodiburg where he has bought the Aler stock of goods and will act as agent there.

MUSINGS OF AN OLD TIMER

Sweet Tribute to Aunt Bettie, Conrad Simons, Charley Warfield, and Others Mentioned by Mr. Bates.

The weekly visits of the News reminds me of the passing of time. The picture that comes to my mind is that of a steamboat tied to the shore with a number of lines. The deck hands are put out to let her loose. One line is let go and hauled in, then another is let go and hauled in, and so on, until the last mooring is broken, and she pushes out from the shore. There is scarcely a week but some death notice attracts my attention. I never heard of Mrs. Elizabeth Lalleist, but "Aunt Bettie Heist" goes back in my memory to the vanishing point. I had no idea when I first heard her name, or first saw her. If Cloverport had any saints, I am sure she was one. Mention of her takes me back to the little log building at the east end of the bridge where the Post Office was kept, with its high window to which horse back riders could ride up and have the mail handed out. No one of near my age will read these lines but has gone many times, either to that window on horseback, or on foot, open-

ed the door and climbed the three or four steps to ask, "Is there anything for us, Uncle John?", and then has seen him shake his head and whisper in a voice scarcely audible, "Nothing." For the delight of younger patrons, Joe used to keep some snakes under the steps in a box.

One boyhood experience will link "Aunt Bettie" to my mind as long as my mind is left me. My mother had some choice gooseberries, and had the old spirit of Kentucky, a desire to share her blessings with her friends. I was sent to town to carry the berries, a part for Aunt Bettie, and a part for Aunt Mary Neel. When I gave Aunt Bettie hers, she enlarged on their good quality, and made me a present of a dime. Like some other boys of those days, dimes of my very own did not not very often come, so I went away very happy. When Aunt Mary had received hers she also said they were very nice, and I said Aunt Bettie had given me a dime. Then she gave me a dime, so I felt very

rich. Now, Mr. Babbage if there is any boy left who had to work as hard to get a dime as you and I did, and who never violated the proprieties any more than this, just let him tell his story in the next issue. I never visited the town without seeing Aunt Bettie. The last time I saw her she was a little more frail, a little thinner if possible, a little harder of hearing, but still sprightly, and had the same refined, sweet countenance which I had seen all my life.

There are but few left of those I considered old people when I was a boy, and only a few of my school-mates left. Fred and Bob Pierce, Joe and Albert Heist, Virge Babbage, Conrad Simons, Charley Warfield and others come into my vision as the big boys who were in school with me.

It is pleasing to read such nice things about Fred Pierce in his adopted home. I am glad he was an elder in the church. The work of God ought to have some of the thought and energy of every life. Let me express my sympathy through your paper, to Aunt Lizzie Keith and Joe and Albert, and the few immediate relatives that remain. Aunt Bettie was a delightful Christian woman, and all who remember her at all will remember her kindly.

EXCELLENT MOTTO

Has The Mary Jane Gang-- Planning A Trip To Wyndote Cave In May--Good Times This Winter.

"By gosh! Tend to your own business and then you will be busy" is the motto of the "Mary Jane Gang". It was originated by one of the Club members and, no doubt, will be printed in large letters and framed for their houseboat, "The Jimmie", before they take their trip to Wyndote Cave in May. The gang has had a splendid winter. Several dinners have been given while "The Jimmie" has been in the mouth of Clover Creek. The house boat is as convenient as a home. It contains every convenience from a refrigerator to a graphophone, which has all kinds of canned music. The kitchen is already attractive, but will be more so this spring with further improvements. The business of the club is merely to have a good time and the gang has it. It is the most exclusive club of Cloverport Society--You cannot pay as you enter, you cannot enter and then pay, you have to inherit the membership and then pay your dues.

SENATOR STEPHENSON MAY LOSE HIS SEAT.

Wisconsin Man's Case to Rival That of Lorimer.

The case of Senator Stephenson is likely to attract as much attention in the next few weeks as did the Lorimer case.

It looked for a time as though the Stephenson case would be allowed to go by default because it was understood that the charges were inspired by his political enemies in Wisconsin, but it is a serious question now whether he can retain his seat.

The majority report on the case recites that the charges of corrupt practices have not been proved, but Chairman Heyburn felt impelled to submit his views as an individual member of the committee and condemned the expenditure of a large sum of money which Senator Stephenson admittedly spent.

Senators Sutherland and Pomerene joined in a report which was even more scathing as to the corrupt use of money, and a minority report from the whole committee recommended that Senator Stephenson be censured.

Stephenson's friends are urging senators to use their influence to bring about an early vote on the case. Luke Lea of Tennessee, the youngest senator, will open the debate against Senator Stephenson, who is the oldest member of the body.

TO FLY ACROSS ATLANTIC.

Atwood Thinks He Can Make Trip In Thirty Hours With One Stop.

"Believing that I can best prove that the aeroplane has come to stay by making a flight across the Atlantic, I shall attempt such a trip in the early part of May," said Harry N. Atwood. "I believe I have the machine that will accomplish this feat in thirty hours with but one stop under favorable conditions."

Atwood confessed that the machine would probably be larger than any previously flown in this country. He said he would carry sufficient gasoline to make a 900 mile continuous flight and when he found his fuel getting low would make a landing near some ocean liner. He declares that there will be about twenty liners on the ocean at that season of the year and it will be an easy matter to pick up one of them.

Two men will accompany him on the flight, one a mechanic and the other a man acquainted with the sea, who will be able to show him how best to ride out a gale if one should be encountered.

Plans for the improved type of hydro-aeroplane which he will use have been completed, and the work of building is said to have begun.

A lifeboat will be the only baggage except a small supply of food.

STOCK COMPANY THAT IS UNIQUE

Its Forty-one Members Are All of the Same Family.

IS A CLOSE CORPORATION.

Father, Mother, Nine Sons and Three Daughters, Together With Husbands, Wives and Children, Take Up Farming on a Large Scale.

Farm and Fireside prints a most interesting account of a family in Ohio which has formed a stock company to take up farming on a large scale. There are forty-one people in the family. Following is an extract from the article:

"The corporation is called the Kirby family, incorporated, and is composed of the father and mother, nine sons and three daughters, together with the husbands, wives and children of the younger members of the company, all aggregating forty-one stockholders.

"The father of this numerous family, William Kirby, is president of the Kirby family, incorporated, while his wife, the mother of the twelve children, assumes the duties of vice president. On the board of directors are the older sons and son-in-law, they being selected by virtue of their greater experience and wisdom in farm management and business.

"The corporation is somewhat in the nature of an experiment, even in California, where many co-operative and communistic industries have been launched in times past. An initial tract of 100 acres of land under complete irrigation and adapted to intensive farming has been purchased, and thereon the active stockholders of the company will find employment. The tract and such adjoining tracts as may be acquired later will be planted largely to orange and olive trees, while poultry culture and the stock raising will be made prominent adjuncts.

"The organization is a close corporation, only relatives being entitled to hold stock, and each stockholder has the privilege of employment from the company, if he so desires, at a regular wage or salary. Any profits which may accrue will be realized in the shape of dividends, paid at such periods as the board of directors may deem expedient. The company has ample capital, coming largely from the estate of the elder Kirby, in which he desires his children to share during his lifetime. Farm operations of a wholesale and extensive nature are contemplated as soon as the company can develop its plans. Modern scientific methods will be applied not only to the crop growing, but also to the farm management and to the selling and of the enterprise.

"In the way of reducing expense and labor certain co-operative features have been adopted, although each family retains its individuality and the right to expend the wages and dividends of its members as it sees fit. On an elevated portion of the tract already owned a large cluster of buildings will be erected. In the center of a spacious court the dwelling of the father and mother will be built, and therein will be arranged a large kitchen and dining hall where meals for all stockholders and workers will be served, the food being provided by the company. The wives and daughters who help to prepare and serve the meals will be regular wage earners. Located around the court will be separate bungalows for each of the families and one or more for the unmarried stockholders. Shaded avenues will lead from each bungalow to the main building, and the whole grounds will be beautified by landscape gardening.

"This plan of forming a giant co-partnership by the head of a large family, instead of making unqualified gifts to the sons and daughters, is one which may well be watched with interest. Ever since the prodigal son wasted his father's substance the problem of dividing the hard earned accumulation of a lifetime so that it might be enjoyed by the natural heirs and yet conserved and safeguarded has perplexed the husbandman. Possibly the family, incorporated, and thus bound together by ties of law as well as by ties of blood, is the solution.

"Likewise the co-operation, the elimination of waste and misdirected effort, the loss sustained by buying and selling in small quantities--might this not amount to a sum sufficient to pay a handsome annual profit?"

GIRLS DANCE AS MEN.

Students of Radcliffe College Celebrate Passing of Midyear Examinations.

More than 150 Radcliffe college girls danced to celebrate the passing of mid-year examinations, and seventy-five of them wore bits of men's clothing. Some appeared in pretty white skirts and dress coats and a few wore trousers.

Each "man" wore a neat little badge on which was printed "I am a man," and most of the "men" took their "girls" to the dance in taxicabs. No real men were present.

Unexampled Courage.

He was the small son of a bishop, and his mother was teaching the meaning of courage.

"Supposing there were twelve boys in one bedroom and eleven got into bed at once, while the other knelt down to say his prayers, that boy would show courage."

"Oh!" said the young hopeful, "I

know something that would be more courageous than that! Supposing there were twelve bishops in one bedroom, and one got into bed without saying his prayers!"--The Lookout.

Not Even One.

In the last ten years not even one student has left the Business University of Bowling Green without a position after completing the combined course.

They have a colored woman helping them and are getting along very well.

College Girls Mostly Marry.

South Hadley, Mass., March 10.—some interesting figures have been compiled concerning Mount Holyoke graduates by Prof. Amy Hewes.

According to her statistics the average age for graduation has fallen from 23 years and 5 months to 21 years 8 months.

Of 4,086 seminary and college graduates 44.79 per cent. are married. Fifty-eight per cent. of the husbands are college graduates, and the percentage is still rising. Forty-one per cent. of the husbands are business men. Seventeen per cent. are teachers. Lawyers, engineers and physicians are chosen about equally and clergymen are fourth choice.

Most of the graduates wait three or four years after commencement before marriage.

The college graduate mother, according to statistics compiled with reference to a certain group, has two children, and more boys are born to college women than girls. No divorces have been reported in fifty years.

STRAW HATS IN KLONDIKE.

Residents of Dawson Hold an Outdoor Midwinter Feast.

A cable from Dawson, Yukon territory, tells of a great outdoor celebration held in the Klondike metropolis in honor of the mild winter in Alaska.

The celebration was called "Dawson's midwinter open air thermo dance" and was attended by every one in the town and the surrounding camps. The band played "A Hot Time in the Old Town Tonight" and other "tropical" airs.

Many dancers appeared in straw hats, linen dusters and other summer garments.

PAPER BAG COOKING

Great System Perfected by M. Soyer, Famous London Chef.

A PAPER BAG LUNCHEON.

By Martha McCulloch Williams.

A paper bag cooked luncheon, with bridge to follow, or an afternoon collation prepared in the paper bags and served after the game, will provide a new note in social hospitality.

With a large party it is not wise to undertake individual bag cooking. Better have bags for each tableful, limiting the tables to playing size.

The two menus here given are adjustable either to luncheon, afternoon collations or late suppers. Claret punch, Sauterne cup, or tea-lemonade should be served with each, winding up with black coffee or chocolate made with a little brandy and very lightly sweetened. Salted nuts, olives and radishes are also served, either together or separate, at the discretion of the hostess.

Dimmonds of Chicken on Toast Green Peas Sliced Potatoes Hot Biscuit

Fruit Endive Salad Sherry Dressing Asparagus with Cheese Cheese Cakes

Sliced Marble or Spice Cake Nuts Raisins Crystallized Fruit

Dimmonds of chicken are on the surface extravagant, but less so than they seem, for the rest of the chicken need not go to waste. The dimmonds are the breast cut in half lengthwise, boned, trimmed, and flattened, but not mashed. They are very well buttered, lightly seasoned with salt and pepper, have a sliced mushroom laid on top, and are wrapped in thin sliced bacon, then cooked in a well buttered bag about twenty minutes. While they cook get ready: thin diamonds of toast. Cut it from stale bread and make as crisp as possible. Butter liberally, and keep very hot without scorching. Lay a chicken diamond on each piece of toast and keep all hot while you add to the gravy in the bag, which must be poured into a small saucepan, minced olives, minced celery, a little lemon juice, a lump of butter rolled very lightly in flour, and the lightest sprinkle of powdered sweet herbs. Cook over hot water till well mixed, then add a spoonful or so of cream, stir it well through, and finish with a spoonful or so of sherry. Do not cook after the wine is in. Pour the sauce equally over the diamonds and send to table very hot.

Green peas and sliced potatoes have been heretofore ascribed. Make your biscuit very tiny, also very short and light. For the salad cut up French endive in inch lengths, along with peeled high flavored apples and heart celery. Mix all well together, put heaping spoonfuls upon crisp lettuce leaves and garnish with celery tips and strings of pimento. Pour over a dressing made from three tablespoonfuls best oil, one tablespoonful lemon juice, one tablespoonful sherry, half a teaspoonful of sugar, a pinch of salt, red and black pepper to taste and a few drops of tobacco or chili vinegar. Mix the dry ingredients well, add the lemon juice, beat smooth, then put in the tobacco. Then add alternately the oil and sherry, beating in each portion well before adding another.

What follows sounds simple, yet may turn out more troublesome: Savory Mouthfuls Sweet Potato Straws Celery Hearts Mushrooms Stewed in Cream Apple Brown Bread Sandwiches Sliced Cake in Variety Fruit Nuts Bon-Bons

For the savory mouthfuls first make a good puff paste, roll it very thin, then cut neatly into small squares—say three inches across. Put upon the squares several sorts of filling—cooked chicken minced with olives and seasoned with melted butter and lemon juice, or cream and sherry; ham shaved as thin as possible, then cut across and mixed with finely minced cucumber pickle; salmon freed of skin and bone, drained, highly seasoned with lemon juice, or tarragon, salt and pepper, or lean roast mutton, minced and mixed with currant jelly, melted in a little claret or vinegar. Anything tasty and easily handled will suffice. Use only a bit of filling, fold over the paste, pinch tight and bake, keeping the triangles as true as possible. Serve either hot or cold.

Sweet potato straws are better hot. Cut potatoes in slices lengthwise, peel, then cut the slices into straws—they should be less than a quarter inch each way. Dip in melted butter or bacon fat and cook inside a greased bag ten to fifteen minutes. Take up, let cool partially, lay on clean paper to absorb any grease, then sprinkle lightly with fine salt, and set again in a hot but fireless oven.

Peel the mushrooms and cut away the stalks, but do not wash unless they show dirt. Put them in a thickly buttered bag with half a gill of cream to the pound, a lump of butter rolled in flour and a very little cold water, say half a spoonful. Seal, put in hot oven for five minutes, slack heat, and cook fifteen minutes longer. Take up in a hot deep dish, add a wineglass of sherry, stirring it in lightly, then dust with pepper and serve very hot.

To make the sandwiches, mince fine or scrape highly flavored apples, mix with a little sweet French dressing, made with lemon juice instead of vinegar, and spread between thinly buttered brown bread.

The Magic Clasp.

He didn't like babies a bit, "Of charm they had never a trace," Although he was free to admit They were needed to keep up the race. But why people thought they were "cute"

Was what he could not understand, And mothers all called him a "brute," Till a baby took hold of his hair, He thrilled at the warm little clasp With a feeling no words can express, And his voice—which was harsh as a rasp—

Grew soft as a maiden's caress, And his eyes they were glowing with light

As the face of his captor he scanned And his finger, clutched snugly and tight,

When the baby took hold of his hand, Was there ever a mortal so vile

That his heart wouldn't start in to sing,

That his lips wouldn't part in a smile At the soft little fingers that cling? And life has no tenderer touch

No lovelier thrill to command, Than the firm little, strong little clutch When a baby takes hold of your hand!

OLD METHODS REVOLUTIONIZED

Eaton-Thompson Direct State
Primary Bill Now a Law.

TEXT OF NEW ACT GIVEN BELOW

Provision Made For the Nomination of Party Candidates For United States Senator by a Preference Vote—Candidates For Elective Offices to Be Named at Primary Elections—Regulations and Penalties Prescribed.

Frankfort, Ky.—The Eaton-Thompson direct compulsory state primary bill, which has been signed by Governor McCreary and becomes a law at once, will apply to all the congressional nominations to be made this year, except in the Sixth and Seventh districts.

Under this act the methods of making party nominations in Kentucky are revolutionized. The text of the bill follows:

An act to provide for the nomination of candidates by political parties at primary elections, and for placing the names of candidates on the ballots to be voted for at general elections, and prescribing penalties for the violation thereof:

Be it enacted by the general assembly of the commonwealth of Kentucky:

Sec. 1. Nominations—How made. Hereafter all candidates for elective offices to be voted for at any general election shall be nominated:

(1) by a primary election held in accordance with the provisions of this act; or

(2) by certificates of nomination signed and filed as herein provided.

The provisions of this act shall not apply to candidates for trustees of common schools or members of school boards where such nomination and election are required by law to be made by a separate ballot, nor of trustees in towns of the fifth and sixth classes, nor to candidates for presidential electors, but such candidates for such offices shall be nominated and have their nominations certified as now, or may be hereafter provided by law. This act shall not be construed to repeal or affect in any way an act entitled "An act to amend an act entitled 'An act for the government of cities of the second class in the commonwealth of Kentucky,'" approved March 21, 1910, Chapter 50, Acts 1910.

Sec. 2. United States senators. Party candidates for the office of United States senator shall be nominated by a preference vote in the manner provided herein for the nomination of other party candidates for the state-at-large. Candidates for party nomination for United States senator shall be voted for at the primary election held next before their election. In any case where, through a vacancy, a United States senator is to be elected for an unexpired term, party candidates for said office shall be nominated at the last primary preceding the election at which said unexpired term is to be filled, provided that said vacancy occurred seventy days before said primary election, and not otherwise. If under this section two candidates for the office of United States senator are to be nominated by each party at the same primary election, candidates for the full term shall be grouped together on the party ballots under appropriate headings.

Parties candidates for nomination for United States senator shall have their returns canvassed in the same way as other party candidates for offices for the state-at-large, and they shall be entitled to have issued to them by the state canvassing board, or state board of election commissioners, certificates of nomination to the successful candidate or candidates of each political party, which certificates of nomination shall be filed with the secretary of state and shall become a public record in his office; and the secretary of state shall, on the first Tuesday in January next after such certificates of nomination of party candidates for the office of United States senator have been filed in his office, report the same to each house of the general assembly separately as soon as each of said houses has organized. The candidate receiving the highest number of votes in a primary nominating election for the office for which he is a candidate shall be declared the nominee of his political party for such office.

Applies to Senator.

Party candidates for nomination for United States senator shall have their returns canvassed in the same way as other party candidates for offices for the state-at-large, and they shall be entitled to have issued to them by the state canvassing board, or state board of election commissioners, certificates of nomination to the successful candidate or candidates of each political party, which certificates of nomination shall be filed with the secretary of state and shall become a public record in his office; and the secretary of state shall, on the first Tuesday in January next after such certificates of nomination of party candidates for the office of United States senator have been filed in his office, report the same to each house of the general assembly separately as soon as each of said houses has organized. The candidate receiving the highest number of votes in a primary nominating election for the office for which he is a candidate shall be declared the nominee of his political party for such office.

Sec. 3. Time and Place of Holding. On the first Saturday in August of each year, between the hours of 6 o'clock a. m. and 4 o'clock p. m. there shall be held at the regular polling places in each election precinct in this state a primary election for the nomination of candidates by political parties as hereinafter defined, to be voted for at the next November election.

Sec. 4. Unexpired Terms—Candidates for unexpired terms to be filled at the November election shall be nominated at the primary next preceding such November election; provided, that such vacancy occurred not less than 70 days before the day on which the next primary is to be held. But if such vacancy occurred less

than 70 days before the primary election the nomination shall be made in such manner as may be determined by the governing authority of the political parties.

Political Parties Defined.
Sec. 5. Parties Required to Nominate in the Primary—A political party within the meaning of this act is an affiliation or organization of electors representing a political policy and having a constituted authority for its government and regulation, and which at the last preceding election at which presidential electors were voted for cast at least 20 per cent of the total vote cast at said election in this state. And such political party shall nominate all of its candidates for elective offices to be voted for at the next succeeding general election at the primary election herein provided for, and not otherwise; provided, that when a vacancy occurs after any nomination by death or otherwise the governing authority of such party may provide for filling such vacancy and making such nominations.

Sec. 6. Nomination Papers—Any qualified elector who files his petition and the nominating petition of electors as hereinafter provided, and is a member of a political party subject to the provisions of this act, shall have his name printed on the official nominating ballot of his party as a candidate for nomination for any office at any primary election held under the provisions of this act. Said petition shall state the name, age, postoffice address, political affiliations and all other legal qualifications of the candidate.

Sign But One Paper.

Each signer of a nomination paper shall sign but one such paper for the same office, except in cases where more than one office of the same kind is to be filled by the same voters at the same election, in which case a voter may sign for as many candidates as there are offices to be filled, and for no more. Each signer of a nomination paper shall declare that he intends to support the candidate named therein. He shall add his residence and street number, if any, and the date of signing.

No person who is not a qualified elector and a member of the party making its nominations under the provisions of this act, and who is not registered, if he lives in a precinct where registration is required, shall be qualified to join in signing any nomination petition.

Sec. 7. Time and Place of Filing—For all offices to be voted for by the electors of one county or of a city, district or subdivision therein, except members of congress, said nomination papers shall be filed with the county clerk of such county at least 30 days prior to the holding of the primary election. For state officers, members of congress, and for all officers to be voted for by the electors of more than one county, such nomination paper shall be filed with the secretary of state at least 40 days before the holding of the primary election.

Signatures Required.

Sec. 8. Number of Signatures—For officers to be voted for by the electors of one county, or a portion thereof, said nomination paper shall be signed by at least 3 per cent, and by not more than 10 per cent of the total vote of the party of the candidate in the city, county or district in which he seeks to be elected. For officers to be voted for by the electors of a district comprising more than one county and less than the entire state, said nomination paper shall be signed by at least 2 per cent, and by not more than 10 per cent, of the vote of the party in each of at least one-half of the counties in such district; provided, that for the office of railroad commissioner such nomination paper shall be required to have said percentage of signatures in only one-fourth of the counties in a railroad commission district. For officers to be voted for by the electors of the entire state, said nominating paper shall be signed by not less than 2 per cent, and by not more than 10 per cent of the vote of the party of such candidate in each of at least 10 counties in the state.

Sec. 9. Basis of Percentage—The basis of percentage in estimating the number of signatures required upon nominating papers shall be the highest vote of any candidate of the party for elector at the last election for president.

Sec. 10. Provides that all nomination papers in custody of the county clerk or secretary of state shall be destroyed six months after the primary election. Such papers as are material to any investigation or litigation shall be held until final determination of such inquiry or litigation. Section 11 relates to the inspection of all nomination papers filed under the provisions of this act.

Sec. 12. Register of Candidates—The secretary of state and the county court clerks shall each keep a book entitled "Register of Candidates for Nomination in the Primary Election," and shall enter therein on different pages of said book for the different political parties, the title of office sought and name and residence of each candidate for nomination in the primary election, the name of his political party and the date of receiving his petitions. Section 13 provides that the secretary of state shall certify to the county clerks of the respective counties the names and place and residence of party of each candidate for each office, as specified in the nominating petitions filed with him and shall designate, subject to the provisions of this act, the device under which the groups or lists of candidates, or candidate, of each party shall be printed in the order

in which they shall appear on the ballot.

Order of Names on Ballot.

Sec. 14. For the purpose of determining the order in which the names of candidates to be voted for by the electors of the entire state shall be certified and printed on the ballots under the designation of the respective offices, the secretary of state shall prepare lists of the counties of each congressional district of the state. He shall then arrange the surname of all candidates for each office in alphabetical order for the first congressional district, and the names shall be certified in this order to the county clerks of all the counties comprising said congressional district. Thereafter for each succeeding congressional district, taken in the order of their numbers, the name appearing first for each office in the last preceding district shall be placed first, and each other name be moved up one place. The lists shall be certified accordingly.

For all other offices for which nominating papers are filed with the secretary of state the order of names of candidates for each office shall be determined by lot at a public drawing to be held in the office of the secretary of state 30 days before the primary election at 2 o'clock p. m., standard time.

Sec. 15. Deals with the publication of names of candidate by the county clerk, and provides that said publication shall be made not less than 20 days before the primaries. Sec. 16 declares that the order in which the different offices are printed on the primary ballot shall be the same as

GET THESE Money-making Secrets WITH Farm Journal

For \$1.00 you can get now not only the FARM JOURNAL for FOUR full years, but also

your choice of any one of our famous booklets, "Money-making Secrets," that other people have bought by the HUNDRED THOUSAND.

Just note what the information given in one of them, "The Million Egg-Farm," did for Robert Liddle, a clerk of Scranton, Pa.

In May, 1910, Robert bought 2300 day-old chicks. He spent just one week studying the methods now given in this book. This was his only preparation for the business. Result—this "greenhorn" raised 95 per cent. of all his chicks,—a most uncommon record! Of these, 1350 proved to be pullets. In less than seven months he was getting 425 eggs daily, and selling them at 58 cents a dozen. His feed cost averaged \$4.00 a day, leaving him OVER \$17.00 A DAY PROFIT,—and this before all his pullets had begun laying.

Isn't "Money-making Secrets" a good name for such booklets?

Read what people say of the other booklets, and of the FARM JOURNAL itself:—

"I find your Egg-Book worth untold dollars," says Roy Chaney, Illinois. "What it tells would take a beginner years to learn."

"I am much pleased with the Butter Book," writes F. J. Dickson, Illinois, "and would like to know how I could secure 300 copies, one for each patron of our creamery."

"Duck Dollars is the best book I ever had on duck-raising," says F. M. Warrick, Penna.

"If your other booklets contain as much valuable information as the Egg-Book, I would consider them cheap at double the price," says F. W. Mansfield, New York.

T. F. McCrea, a missionary in China, writes, "I found Garden Gold a great help in my garden this summer. I lost my health in the great famine, trying to save the starving Chinese, and I am trying to get it back by getting near to the soil. After several hours' tussle with the Chinese language, and mission problems, it is a great rest to get out with the vegetables, trees, chickens, etc. I am saving money and regaining my health. My wife and I both find Farm Journal indispensable. We like its clean, moral, optimistic tone, and look upon it as a constructive force making for purity, health, happiness, and righteous prosperity."

"I think your Egg-Book is a wonder," says C. P. Shirey, Penna.

"The Farm Journal beats them all," writes T. H. Potter, Penna. "Every issue has reminders and ideas worth a year's subscription."

"One year I took another agricultural paper," says N. M. Gladwin, Washington, "and it took a whole column to tell what Farm Journal tells in one paragraph."

"I was very greatly helped by your garden page," writes Mrs. Joe Lawrence, Saskatchewan. "I was never successful in growing cabbage until last summer, when I tried the Farm Journal way. Now I have more than I need to use, so have had the pleasure of giving several neighbors a treat."

"Farm Journal was a regular visitor at my boyhood home," writes Dr. William Davis, New Jersey. "When the first copy came, it carried me back ten years, and I felt a boy again. I shall never be with it again—I want home to seem like home. When it arrived, I felt the gladness I had felt in my home. I begin on the first page and read to my wife until half-past ten, and all through the month I drink of it ere I go to bed."

"If I could get as good interest on every dollar as I get from the Farm Journal, I would soon be a millionaire," says A. W. Weitzel, Penna.

"Farm Journal is good for the man behind the counter, as well as the man in the field," says J. L. Sloat, a Virginia back clerk.

MONEY-MAKING SECRETS.

These booklets are 6 by 9 inches, all profusely illustrated.

POULTRY SECRETS is a great collection of discoveries and methods of successful poultrymen. It gives Felch's famous mating chart, the Curtis method of securing 50 per cent. more pullets than cockerels, Boyer's method of insuring fertility, with priceless secrets of mating, breeding, feed and feeding, how to produce winter eggs, and others long jealously guarded, now first published.

HOUSE SECRETS exposes the methods of "shiping," "plugging," cocaine and gasoline doping, and other tricks of "gyps" and swindlers, and enables any one to tell an untruthful horse. It also gives many valuable training, feeding, breeding and veterinary secrets.

THE MILLION EGG-FARM tells all of the methods by which J. M. Foster makes over \$18,000 a year, mainly from eggs. Back-yard chicken-raisers, learn all about the "Rancocas Unit," and how Foster FEEDS his hens to make them produce such quantities of eggs, especially in winter.

CORN SECRETS, the great NEW hand-book of Prof. Hollen, the "Corn King," tells how to get ten to twenty bushels more per acre of corn rich in protein and the best stock-feeding elements. Pictures make every process plain.

THE "BUTTER BOOK" tells of seven cows that produced half a ton of butter each per year (140 pounds is the average). An eye-opener for dairymen. Get it, weed out your poor cows, and turn good ones into record-breakers.

GARDEN GOLD shows how to make your backyard supply fresh vegetables and fruit, how to cut down your grocery bills, keep a better table, and get cash for your surplus. It tells how to plant, cultivate, harvest and market.

DUCK DOLLARS tells how the great Weber duck-farm near Boston makes every year 50 cents each on 40,000 ducklings. Tells why ducks pay them better than chickens, and just HOW they do everything.

TURKEY SECRETS, the latest authority on turkey-raising, discloses fully the methods of Horace Vose, the famous Rhode Island "turkey-man," who supplies the wonderful Thanksgiving turkeys for the White House. It tells how to mate, to set eggs, to hatch and care for the young, to prevent sickness, to fatten, and how to make a turkey-ranch PAY.

in the case of a regular election.

Sec. 17. Ballots and Ballot Boxes—There shall be a separate ballot for each political party subject to this act at the primary election provided herein. Such ballots shall be printed in substantially the same manner as now provided by law in case of regular elections, except that on the back thereof shall be printed the words, "Official Primary Ballot," and at the head thereof shall be printed the words "Official Primary Ballot," together with proper party name and the party emblem. This section also provides for the printing of sample ballots for use of each political party.

Sec. 18. Provides that there shall be furnished at each primary election and each election precinct 50 per cent more official ballots for each political party than the number of votes cast by such political party at the last preceding presidential election.

Qualification of Electors.

Sec. 19.—In addition to the special qualifications hereinafter prescribed, the same qualifications shall apply in primary elections held under this act as are now required in regular elections. Said qualifications shall be determined as of the date of the primary without regard to the qualifications or disqualifications as they may exist at the succeeding regular election.

In precincts where registration is required, no elector except those entitled to be specially registered as hereinafter provided shall be entitled to vote in any primary election unless he is registered in the registration book of said precinct for the pre-

ceding year, as affiliating with the party whose ballot he offers to vote. In other precincts qualified electors shall be allowed to vote only the ballot of that party with which they declare their affiliation.

Sec. 20. Special Registration—Fourteen days before the primary provided for in this act there shall be a special registration at the office of the county clerk for persons entitled to be specially registered for the purpose of voting in said primary. The following persons and no others shall be entitled to special registration:

1. Any persons who were absent from the city or town of their residence during the entire time of the registration for the preceding year.

2. Persons who were prevented from registering by reason of their own sickness or by death in their immediate families.

3. Persons who moved into the city or town of their present residence.

Farmers Keep Books.

A Kansas farmer who keeps books on his farm operations, claims to be able to show that his hogs net him 200 per cent. profit each year. He kept tab on three sows which raised twenty-one pigs in two litters each. These pigs sold for \$630, and after deducting the value of the sows, the cost of labor and feed, the profit showed as stated.

Sec. 22. Officers of election for the primary shall be appointed by the county board of election commissioners, as provided by law in the case of the November elections, provided, that the lists of names selected by the several party committees shall be submitted to said board not less than 15 days before the holding of the primary, and shall be open to inspection thereafter; and, provided, that candidates before the primary shall be entitled, if they so desire, to unite, regardless of party, in designating the names of persons to be appointed officers of election.

In cases where candidates unite in the selection of persons to be appointed officers of election as herein provided, the lists of names submitted by the party committees shall be treated by the board of election commissioners as follows: If only one group of 25 per cent of the candidates unite in selecting one person to be appointed an officer of election in each precinct so designated, said board shall appoint only one officer of election for such precinct or precincts from the lists submitted by the committee of that party whose candidates form a majority of the signers of such written designation. If the signers of such lists are divided equally between the parties, then the lists of names submitted by each party committee shall have chosen from it only one name for an officer of election in every other precinct among those for which names are thus designated. If two groups of 25 per cent or one group of 50 per cent of all candidates so unite in designating persons to be appointed officers of election in one or more precincts, the remaining officers in such precincts shall be selected equally from the lists of the several party committees. In the event that 75 per cent of all candidates unite to procure the appointment of election officers in one or more precincts, or if three groups of 25 per cent of the candidates, or one group of 50 per cent and another of 25 per cent of the candidates submit names under the provisions of this section, the remaining officer of election in each precinct shall be chosen alternately from the lists of the different county committees.

All persons who are to act as election officers shall be appointed by said board in accordance with the foregoing provisions.

The duties herein provided shall be enforceable against said county board of election commissioners on the petition of any candidate, by the writ of mandamus. Proceedings in such cases shall be instituted in the circuit court. The proceedings shall be summary and without delay, and the orders of the court shall be final and not appealable.

Sec. 23. Challengers and Inspectors.—Each political party shall be entitled to have not exceeding two challengers and two inspectors at each precinct during the holding of said primary election.

Sec. 24. Has to do with the manner of voting. Each elector shall be entitled to but one ballot, which, having been prepared in voting booth, shall be delivered, folded, to judges

of election. The judges shall, in the presence of elector, remove the secondary stub from said ballot and deposit said ballot in the box provided for the political party for which the vote is cast.

Counting of Ballots.

Sec. 25. Refers to the counting of ballots and certifying returns, which is to be done in the same manner as is provided, or any hereafter be provided for counting, certifying and signing the official returns in the general elections. Officers of election shall count the number of ballots cast by each political party, and shall keep them separate so that all the ballots belonging to one party shall be in one bunch and the ballots belonging to another party in another bunch, and so on as to all parties who participate in such primary election. These boxes, sealed, shall be turned over to the county clerk, as is now provided at a regular election. Where a contest has been instituted and not disposed of, the ballot boxes shall not be opened by said clerk until after said contest has been finally disposed of.

Canvassing Returns.

Sec. 26. This section regulates canvassing of returns and certificates of nomination. On the third day after the close of any primary nominating election the county election commissioners of each county shall proceed to canvass the returns of said primary elections and tabulate the same. Such tabulation of votes for nominations for United States senator and for all other candidates for office whose nomination papers are now, or may hereafter be required to be filed in the office of the secretary of state, shall be made on one separate sheet for each political party, and shall be immediately transmitted to the secretary of state. The tabulation of voters for all offices for which nomination papers are required to be filed in the county clerk's office shall be in another separate sheet of paper for each political party and shall be filed in the county clerk's office immediately after the canvass of the returns and tabulation of the votes by said election commissioners and certificates of nomination shall immediately issue to the persons receiving the greatest number of votes for the offices for which they were candidates. The secretary of state shall, not less than 20 days before the day on which the general November election is held, certify, under the seal of his office, the persons whose names are entitled to be printed on the official ballot at the November election as the candidates of the various political parties for offices to be filled at such election, and who have been nominated as herein provided. He shall make and transmit by registered mail a duplicate of such list and certificate of nomination of candidates for offices to the county clerks of every county in the state where the candidate is to be voted for by the state-at-large, and he shall so transmit the names of such candidates to the county court clerks of each and every county in the district in which such candidate is to be voted for by a district smaller than the state.

On the fourteenth day after such primary nominating election the county election commissioners of the largest county in each legislative district in the state that is composed of two or more counties, shall assemble at the county clerk's office in said county and canvass the returns that have been certified by the election commissioners of each county in such district for state senator and for representative, and they shall issue to the person receiving the greatest number of votes for the office for which he was a candidate a certificate of nomination, which certificate shall, not less than 15 days next before the election is held, be filed in the office

of the county clerk of each county comprising such legislative or senatorial district. On the fourteenth day after such primary nominating election the state board of election commissioners shall meet at the Capitol and canvass the returns of said primary election that has been certified and filed with the secretary of state for all the political parties entitled to participate in such primary nominating election, and after they have completed the tabulation and canvass of the returns of said primary nominating election they shall immediately certify to the same, and they shall issue to the candidate of each political party receiving the highest number of votes for the office for which he was a candidate a certificate of nomination, which certificate shall, not less than 30 days next before the day on which the general election is held, be filed in the office of the secretary of state.

Court Review.

Sec. 27. Whenever it shall be made to appear by affidavit filed in the circuit court that an error or omission has occurred, or is about to occur, in the placing of any name on an official primary ballot, or that an error or wrong has been committed, or is about to be committed, in printing such ballot, or in the performance of any duty imposed by this act, the court shall order the officer or person charged with such error, wrong or neglect, forthwith to correct the error, desist from the wrongful act or perform the duty, or show cause why he should not be compelled to do so. Failure to obey the orders of the judge or court shall be contempt of court and punishable as such. If the circuit court be not in session in the county the circuit judge shall hear and determine the complaint in vacation unless he be absent from the county. In which case said affidavit shall be filed before the judge of the county court, who shall have full power to hear and determine the complaint and make appropriate orders thereon. The orders of a court or judge under this section shall be final and not appealable. Only candidates may institute proceedings under this section. In case a charge under this section is directed against the secretary of state or any other state officer, the affidavit shall be filed in the Franklin circuit court.

Contests.

Sec. 28. Any candidate wishing to contest the nomination of any other candidate who was voted for at any primary election held under this act shall give notice in writing to the person whose nomination he intends to contest, stating the grounds of such contest, within five days from the time the election commissioners shall have awarded the certificate of nomination to such candidate whose nomination is contested. Said notice shall be served in the same manner as a summons from the circuit court, and shall warn the contestee of the time and place, when and where the contestee shall be required to answer and defend such contest, which shall not be less than three, nor more than 10 days after the service thereof. Such contest shall be tried by the judge of the circuit court of the county in which the contestee resides or is served. Upon return of said notice, properly executed as herein provided, to the office of the circuit clerk of the county in which said contestee resides or is served with such notice of contest, it shall be the duty of the clerk of the circuit court to immediately docket said cause and to immediately notify the presiding judge of the circuit court of said county that such contest has been instituted; provided, that in counties constituting separate circuit court districts and having more than one circuit judge, the judge who shall hear and determine such cause shall be determined by lot. In trying such contests the court shall hear and determine all questions of law and fact without the intervention of a jury, and may examine the witnesses orally or require the parties to take the evidence by depositions, in the discretion of the court, or as may be agreed by the parties; provided, however, that if the evidence is taken orally either party may have the right to require it to be taken by the official stenographer or reporter for the court.

The court may require the contestant, or the person who has the burden of proof under the issues joined, to complete his proof in not less than five days, and the contestee, or the person not having the burden, to complete his proof in not less than five days thereafter, and each party may be given one day additional for producing evidence in rebuttal, and no greater time shall be extended unless the court be satisfied that the ends of justice demand it. The court shall, immediately after the evidence is concluded, consider said contest and determine the same, and his judgment shall be filed in the office of the circuit court clerk and shall have the same force and effect as a judgment rendered by the court in term time. The party desiring to appeal from the judgment of the court shall, on the same day, after the same is rendered, execute a supersedeas bond in the same form and to the same effect as other supersedeas bonds in other civil actions for an appeal to the court of appeals.

In Court of Appeals.

In the event of an appeal to the court of appeals it is required that the original papers in said contest, including such transcript of evidence as may be furnished or as may be required by the court or by the parties, shall be transmitted to the clerk of the court of appeals, which record

\$20,000 Farm

FOR \$10,000 CASH!

400 acres of the best land in the county. Well improved; well watered and situated in one of the best communities in the county; one-half mile from railroad station. 200 acres of this land is creek bottom. FARMERS' INSTITUTE

Demands Higher Tax For Automobiles—Against Repeal Of Dog Law—Resolutions Passed.

The State Farmers' Institute held at Frankfort last week adopted the following resolutions:

"Resolved, That we believe the farmers and taxpayers should be better protected from the dangers of reckless driving of automobiles on public roads, and we, therefore, ask the present General Assembly to enact such laws as will protect our families while on the public highways of the state. To this end we endorse Senate Bill No. 57.

"Resolved, That we believe those who use the turnpikes and public roads of this state should pay their part for their maintenance; therefore, we favor an increased automobile tax, a tax on vehicles used for public hire and on peddlers' wagons, all of which should go to the state roads funds.

"Resolved, That the Senate be requested to restore to House Bill No. 215 the provision that agriculture and domestic science be taught in the common schools, and the House of Representatives be urged to concur in this.

"Resolved, Whereas, under the protection of the dog law the number and value of sheep in Kentucky has greatly increased; and

Whereas, Under the revenue derived from the collection of the dog tax there has been over \$225,000 paid for sheep destroyed and over \$325,000 paid into the school funds of the various counties.

"Whereas, There are now several bills pending in the House and Senate attempting to repeal this dog law,

"Be it resolved, That we, the delegates of the Kentucky State Farmers' Institute do respectfully petition our Senators and Representatives to vote against the repeal of the dog law and urge them to keep in force the only protection the sheep growers now have.

"Whereas, There is now pending in the Federal Congress a bill known as 'the general parcels post,' and

"Whereas, The same has been endorsed only partially by the President and the same to apply only to certain rural route districts; and

"Whereas, We, the Farmers' Institute of the State of Kentucky, believe that the bill should be so passed as to give us 'the general parcels post service,'

"Therefore, be it resolved by the State Farmers' Institute of the State of Kentucky, that we most heartily endorse the 'general parcels post bill,' and we here request and urge our Congressmen and Senators of the State of Kentucky not only to vote for such a bill, but to give the measure every substantial material and moral support in their power. We ask this of our Representatives and Senators regardless of politics."

Resolutions thanking Commissioner of Agriculture Newman, the General

Assembly and Governor McCreary for courtesies were passed.

KEEP THE KIDNEYS WELL

Health is Worth Saving. And Some Cloverport People Know How to Save it.

Many Cloverport people take their lives in their hands by neglecting the kidneys when they know these organs need help. Weak kidneys are responsible for a vast amount of suffering and ill health, but there is no need to suffer nor to remain in danger. Use Doan's Kidney Pills—a remedy that has helped thousands of kidney sufferers.

The following statement leaves no ground for doubt.

W. M. Young, farmer, R. F. D. 3, Hawesville, Cloverport, Ky., says: "A member of my family used a box of Doan's Kidney Pills about three years ago and found them very beneficial. She had pains in her side and across the small of her back. Seeing Doan's Kidney Pills so highly recommended in the local papers, she got a supply at Gibson & Son's Drug Store and began using them as directed. In a short time she was cured and has not had any further need of a kidney remedy."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

STIMSON AGAINST REFUND.

Secretary Decides American Ships Should Pay Canal Tolls.

Secretary of War Stimson has reached the conclusion that it will be unnecessary and unwise as a matter of policy for the United States to refund tolls to be paid by American vessels passing through the Panama canal. The secretary reserves, with this conclusion, his strong conviction that the United States has both legal and moral rights, despite the Hay-Pauncefote treaty, to remit to American vessels the amount of tolls paid either in whole or in part.

Both President Taft and Secretary Stimson have repeatedly asserted the right of the government to refund tolls paid by American ships, and it has been the general impression that the administration would insist on the exercise of this right. The definite announcement of Mr. Stimson's views materially alters the situation.

WOMAN TELLS OF STEEL WORKERS' LIVES.

How an Income of Less Than \$12 a Week is Spent.

Miss M. F. Byington, a Pittsburgh "social survey worker," related to the Stanley steel committee at Washington her experiences among steel laborers at Homestead, Pa., during the winter of 1907-8.

"My investigations have shown," said Miss Byington, "that it is impossible to maintain a normal standard of living on less than \$15 a week. At present 65 per cent of the employees of the Homestead plant are day laborers, who are paid about \$10.50 a week."

The family of a steel worker who received less than \$12 a week spent its income, she said, as follows: Rent, \$1.88; food, \$4.16; clothing, 94 cents; furniture, 9 cents; fuel, 38 cents; insurance, 70 cents; miscellaneous, 92 cents.

The expenditure for rent, the witness said, represented two small rooms in an insanitary court, where the "death rate was double the normal and where comfort was impossible."

Workers earning \$20 classified their expenditures as follows, according to Miss Byington's tables:

Rent, \$3.73; food, \$9.38; furniture, 80 cents; clothing, 36 cents; fuel, 90 cents; insurance, \$1.63; miscellaneous, \$5.22.

Families of steel workers add to their scanty income by taking single men to board, the witness stated, and the rent for sleeping quarters in the squalid houses was \$3 a month.

"A single man can get the bare necessities of life for \$11 a month," she said.

LUXURY FOR \$25,000 COW.

Student Bathes, Manicures and Grooms Dolly Dimple.

With a college student to care for her, warm baths daily, her hoofs and

horns manicured and her glossy hide polished till it shines, Dolly Dimple, a \$25,000 cow, is experiencing the last word in bovine luxury.

Dolly Dimple likes her attendant, who is Alonzo Hathanway, from Ames, Agricultural college, in Iowa. Dolly also likes her warm baths and the grooming and rubbing she gets every day. But greater than all these luxuries to her is her \$6,000 offspring, a sturdy bull calf, yet to be named and ultimately to be shipped to W. H. Tichenor of Wisconsin.

Dolly Dimple is the pride of Langwater farms, owned by F. Lothrop Ames, the millionaire, of Boston, Newport, R. I., and North Easton, Mass. Mr. Ames sought a skilled man to care for her, and Mr. Hathanway obtained a year's leave of absence from college to do so.

CHINAMAN A JOURNALIST.

Has a Degree From the University of Missouri That Says So.

Hin Wong, who is said to be the first Chinese to receive a degree in journalism, has finished his work at the University of Missouri and will go to China shortly. Wong says he will do his part in the formation of a new republic, although he will not accept a governmental position which has already been offered him. He expects to help the unfortunate classes among his people by giving publicity to their condition.

Wong has been engaged as correspondent by a New York newspaper and will write articles for Chinese papers. He will devote all of his time to acquainting his own people with the actual conditions among the poor of China and their reasons for discontent.

"It is a field of work that has never been attempted in China," said Wong. "It was my main reason for coming to America to study journalism."
